

Joining Webex on your iPad/iPhone

Joining through Teams:

The post in Teams by a teacher/staff member should have a *Join* button, and a copy of the password. Tap on *Join* to start.

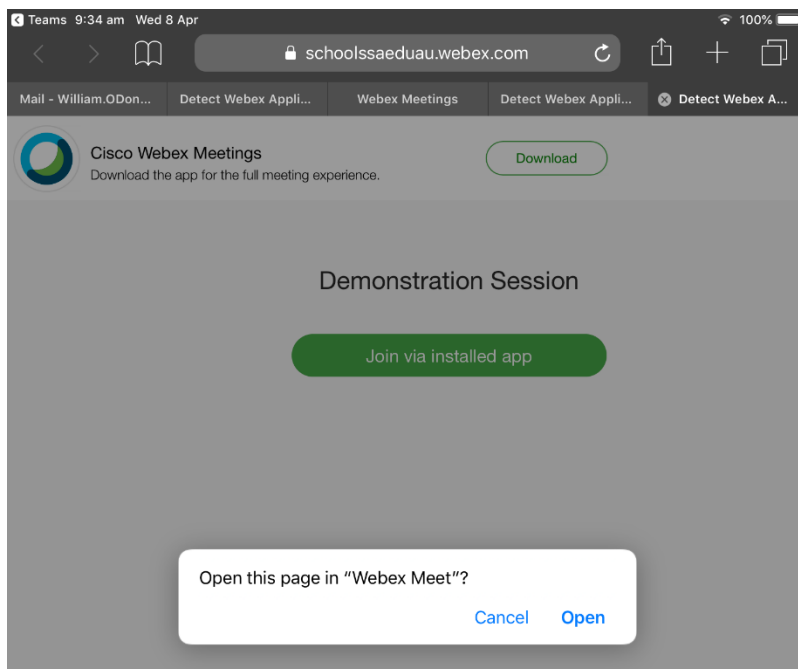

Joining via Link (Dojo, Seesaw etc.):

Tap on/type in the link provided to start.

Opening The App & Joining:

Tapping the link will take you to Safari, which will then ask if you want to open the Cisco Webex app.

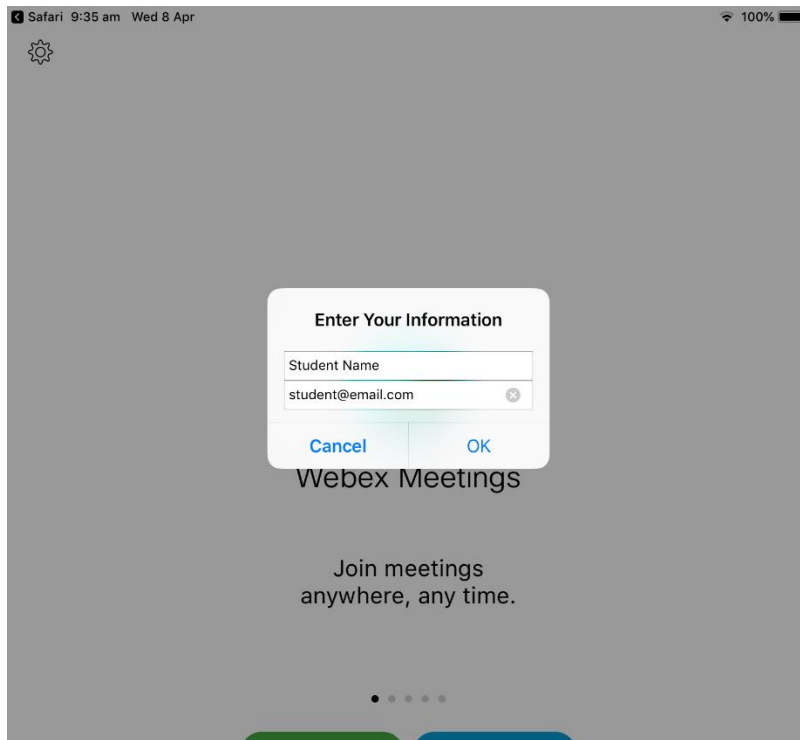

Tap *Open*

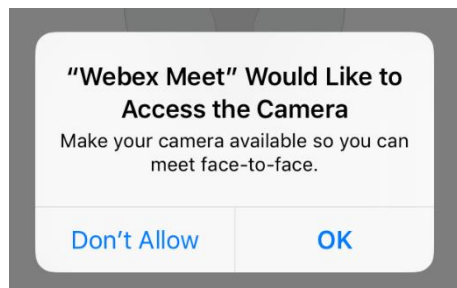

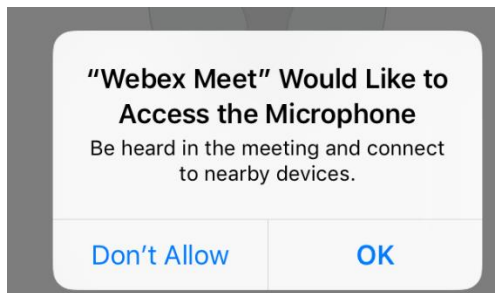

Joining Webex on your iPad/iPhone

If you have installed the app correctly, it will now open up and ask for name and email (can be either student or parent email). Type in the information, then tap OK.

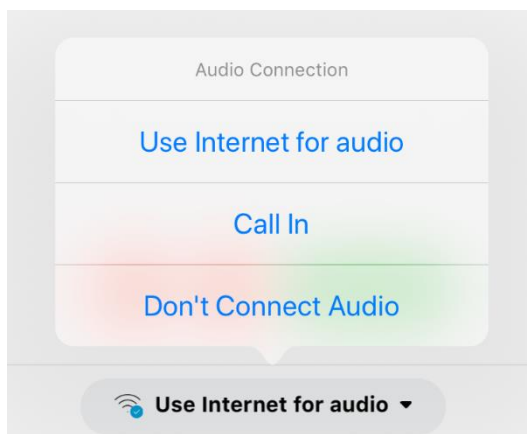

If you get prompts to access the microphone and/or camera, tap *OK*

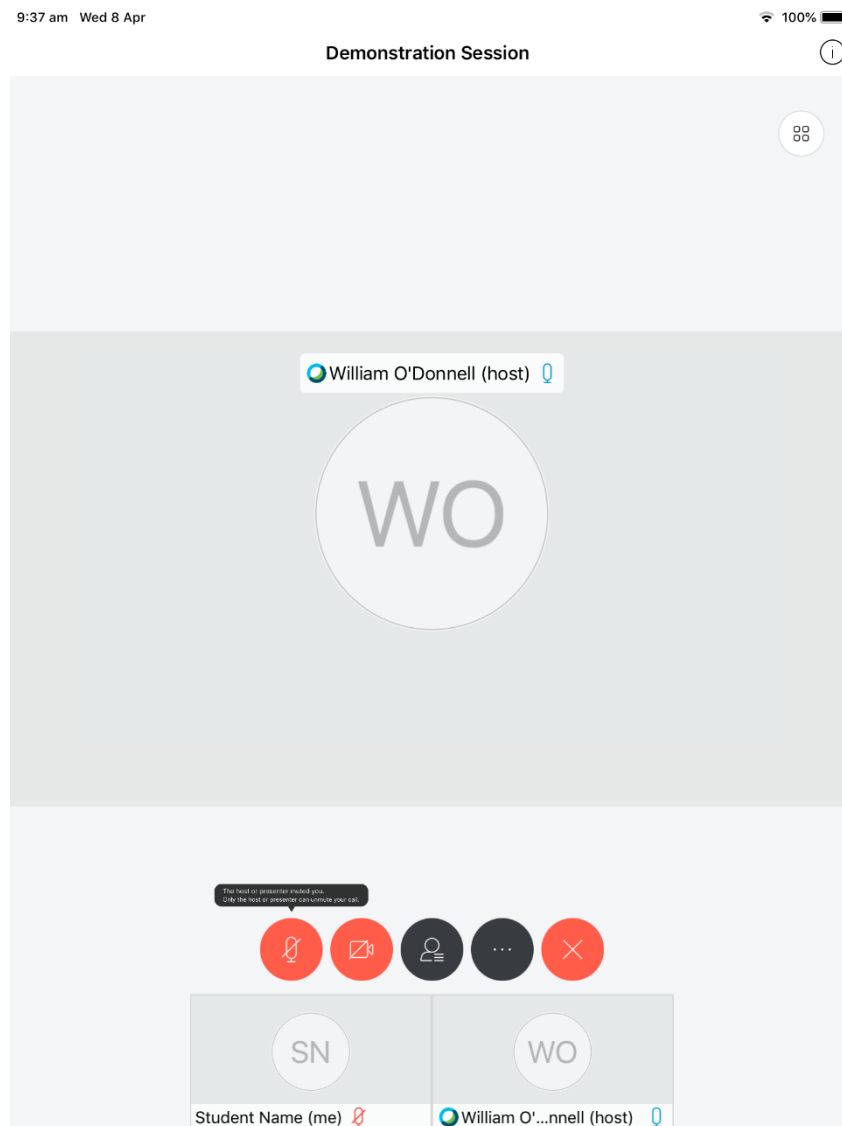

Now tap *Use internet for audio* at the bottom, and then tap *Use Internet for audio* at the top of the list. You can tap *Call In* and follow the instructions if you have issues with audio on the device.

Now tap the green *Join* button to enter the session.

Joining Webex on your iPad/iPhone

You should now be joined in, and will see what the teacher/presenter is sharing on the screen, as well as a preview of your own camera (if turned on), and other people in the session (if turned on).

You can use the two icons on the left side of the row of circles to turn on and off your microphone and camera, although microphone access is usually controlled by the teacher/presenter.
